103D CONGRESS 2D SESSION

H. RES. 539

To encourage the President to establish an advisory commission on tribally controlled institutions of higher learning.

IN THE HOUSE OF REPRESENTATIVES

SEPTEMBER 21, 1994

Mr. Skeen (for himself, Mr. Kildee, Mr. Williams, Mr. Richardson, Ms. English of Arizona, Mr. Fazio, Mr. Oberstar, Mr. Schiff, Mr. Pomeroy, Mr. Johnson of South Dakota, Mr. Swift, Mr. Flake, Mr. Hilliard, Mr. Dellums, Mr. Owens, Mr. Stupak, Mr. Bereuter, Mrs. Meyers of Kansas, Mr. Tejeda, Mr. Pastor, and Mr. Barrett of Nebraska) submitted the following resolution; which was referred to the Committee on Education and Labor

RESOLUTION

To encourage the President to establish an advisory commission on tribally controlled institutions of higher learning.

1 Resolved.

2 SECTION 1. FINDINGS.

- 3 The House of Representatives finds the following:
- 4 (1) The Federal Government has a special trust
- 5 relationship and a fiduciary duty to American Indi-
- 6 ans and the Federal Government's Indian education
- 7 policies have progressed to a point where Indian

- tribes establish, control, and administer educational institutions on or near Indian reservations.
 - (2) There currently exist 29 tribally operated post-secondary institutions serving over 300 tribes nationwide and over 16,000 Indian students in 13 States including Arizona, California, Kansas, Michigan, Minnesota, Montana, New Mexico, North Dakota, South Dakota, Washington, Wisconsin, Iowa, and Nebraska.
 - (3) Tribally controlled and administered postsecondary institutions promote tribal sovereignty and self-determination and promotes individual academic achievement in culturally sensitive environments.
 - (4) Despite the overall improvement of educational opportunities for American Indians within the last 20 years, tribally operated post-secondary institutions remain largely underfunded and American Indians continue to experience the lowest overall college attendance rate in the United States.
 - (5) The efforts of tribally operated post-secondary colleges to secure continuing and sufficient funding, staff and educational resources which are vital to a successful academic institution have been frustrated by the lack of Federal assistance in promot-

- ing the National Education Goals for American Indians and the lack of awareness of the successful contributions of Tribal colleges to tribal communities and tribal members.
 - (6) The participation in federally sponsored programs by historically black colleges and universities has been promoted by an Executive order since the Carter Administration and that order has been reaffirmed unconditionally by each subsequent administration. The Hispanic community has also had a similar Executive order for several years. The Nation's 29 tribally controlled institutions of higher learning have been seeking a similar order.
 - (7) An Executive order would require no appropriation, but would promote the awareness by the Federal departments of the fact that there exist fully accredited tribally controlled institutions of higher learning among the postsecondary educational institutions in this Nation.
 - (8) The tribally controlled institutions of higher learning are not included in many department's defined program eligibility criteria due solely to the fact that most departments remain unaware of the existence and tremendous successes of the institutions.

(9) Due to the minuscule proportion of the pop-1 2 ulation which American Indians comprise, they re-3 main the last minority community which does not benefit from this unique program, and efforts to include them within the executive branch have been overshadowed by issues which confront larger demo-6 7 graphic sectors. A legislative resolution to this defi-8 ciency would ensure that this compelling inequity is addressed expeditiously. 9

10 SEC. 2. PRESIDENTIAL ACTION REQUIRED.

- 11 (a) ACTION REQUIRED.—The President is urged to
- 12 issue an Executive order fostering the advancement of the
- 13 National Education Goals for American Indians, promot-
- 14 ing Federal assistance for tribally controlled and operated
- 15 post-secondary institutions, and establishing an advisory
- 16 commission on tribally controlled institutions of higher
- 17 learning.
- 18 (b) Functions of Commission.—Any commission
- 19 established pursuant to subsection (a) should be respon-
- 20 sible for the development and implementation of policies
- 21 and programs designed to achieve an increase in the par-
- 22 ticipation by tribally controlled institutions of higher
- 23 learning in federally-sponsored programs.
- 24 (c) Membership of Commission.—Any Commis-
- 25 sion established pursuant to subsection (a) should be com-

- 1 posed of members appointed by the President, but should
- 2 include representatives of tribally-controlled institutions of
- 3 higher learning, participating Federal departments, and
- 4 agencies, other institutions of higher education and enti-
- 5 ties from the private sector, and elected officials.
